Apollo Hospitals set a New Standard of Patient Safety with **LordsMed**

Prof. Ravi P Mahajan

Director - Critical Care Integration & Transformation, Apollo Hospitals

We will be monitoring our patients 24/7, round the clock, with LordsMed.

In just 6 months, we are covering at least 15 to 17 hospitals out of our 70 hospitals, and the goal is to cover 40 by the end of the year.

Dr Sandeep Reddy

Consultant, MS Ramaiah Memorial Hospital

LordsMed has improved patient experience greatly, especially at night due to its contactless technology.

My nurses don't have to constantly disturb the patient during their sleep. It is also a moment of pride for us as such an advanced technology has been completely Made in India.
